Jack Campbell

Prevue Succession Plan

Mr. Jack Campbell

The following Prevue Succession Planning Report will enhance your internal resource management.

Mr. Jack Campbell has been compared to the benchmarks selected. You may repeat this process as often as required, and select as many benchmarks as you wish. Each Prevue candidate's suitability is calculated and listed in a descending order of percentage fit.

The following benchmarks were chosen for this Succession Planning report.

1. Electrician

2. Engineering Manager [u]

As part of this benchmark's design process, management resolved that certain interview areas of the Prevue sten graph are of significant importance to successful job performance. Any benchmark with a candidate's score in a critical interview area will be identified by an {*} next to the benchmark suitability percentage. Therefore the other factors that contribute to a decision, including position interview and performance appraisal, should bear more importance for that particular candidate.
